The Water Spa is the heart and soul of your spa experience. Our warm, salt-water pool assists in alleviating pain and soothing tired or aching muscles.

We suggest the following circuit (or one similar) to maximize your Water Spa experience:

To begin, shower with warm water to cleanse the skin. Enter the pool with a slow pace and proceed to your chosen feature.

The large bench offers two jet formations: One concentrates on your neck and lower back, the other provides a wave of motion the length of your spine.

The waterfall fountains enable you to target *specific* areas of the back and neck with warm cascading water.

The air lounge promotes circulation and is an opportunity to recline and breathe easy.

Finally, cozy up in the champagne grotto where thousands of tiny bubbles create a pleasantly unique sensation.

Taking a cool shower during your circuit (or use of the plunge bucket) is rejuvenating and encouraged. The open water area is perfect for drifting or stretching to enjoy the increased range of motion that warm flowing water promotes.

Daybeds located on the mezzanine are for your continued rest and relaxation.
